The ½ Finals round shall consist of three laps of five sections. The commissaires' panel will set the competition time according to the number of entered riders.

#### Final round

The best six riders in the ½ Finals round will be eligible to compete in the Finals round. The scores gained in the ½ Finals round do not count in the Finals round.

#### Final procedure

At the Finals round it will be applied the six by six system:

Before the start, the six riders will be presented on the start podium, in inverse order to the position obtained in the ½ Finals round. After the presentation, they must go to section one.

The order to start will be determined by the result obtained in the ½ Finals round. Rider that obtained the sixth place shall start first in section one and so on. The same principle applies for the remaining sections.

In case of tie, article 7.1.047 of the UCI Trials Regulations shall apply.

The UCI will award the first three riders ranked in each category.

## National Team Competition

### **7.5.001** General

A trials national team competition shall be established in a dedicated section at the trials world championships

### **7.5.002** Entries

The rider's participation for the trials national team competition must be done by the team manager at the rider's confirmation.

The maximum number of riders in a trials national team competition is 5, one per category:

- 1 Men Juniors 20"
- 1 Men Juniors 26"
- 1 Men Elite 20"

- 1 Men Elite 26"
- 1 Women Elite

The minimum number of riders in a trials national team competition is 3. They must belong to different categories.

#### **7.5.003 Starting procedure**

The total UCI points of a national team is the sum of each rider's individual UCI points. The total number of UCI points will determine the start order in the trials national team competition. The national team with the lowest total UCI points will start first.

The start order of the riders in each national team is determined by each team manager.

The first rider to start the competition belongs to the national team with the lowest UCI points. The second rider is from the national team with the second lowest UCI points and so on. The same procedure applies for the remaining riders.

Riders ride the sections one by one and only once.

#### **7.5.004 Section description**

The section, which must be split in five parts, has to be designed/built according to the UCI trials section building guide. Each part is composed by different obstacles marked with four different levels (gates).

The length of a section must be between 30 to 50 m and it must be lineal.

The five parts of each section must be clearly defined by a cross-wise tape on the ground in order to identify each part.

Each part must contain the four different levels (gates) indicated with coloured arrows. Riders will get a different score depending on the level (gate) they choose to ride.

Points scored with each level (gate)

- White gate: 10 points
- Blue gate: 20 points
- Red gate: 30 points
- Yellow gate: 40 points

**7.5.006 Results**

The points scored by each rider count as points for his national team's overall score.

The winner is the national team with the highest score.

In case of tie, the national team that scored points riding on the highest level (gate) will break the tie.

**BMX Freestyle Park**

**6bis.6.003** A BMX Freestyle Competition for each category may be composed of the phases (Qualification, Semi-final or Final) described below, and within each phase, a number of heats.

For Park Competitions, a heat is a group which comprises 2 to 5 riders.

The combination of phases and heats (if applicable) for a category depends on the number of entries and is found in the following table.

**Park Competitions**

Number of entries	Competition phases	Qualification rule	Number of heats
5 - 8 entries	2 phases: Qualification x 1 Final x 1	Top 4 in Qualification advance to Final	Qualification: as below  1 heat of 4 in Final
9 – 15 entries	2 phases: Qualification x 1 Final x 1	Top 8 in Qualification advance to Final	Qualification: as below  2 heats of 4 in Final
16 - 30 entries	2 phases: Qualification x 1 Final x 1	Top 12 in Qualification advance to Final	Qualification: as below  3 heats of 4 in Final
More than 31 entries	3 phases: Qualification x 1 Semi-final x 1 Final x 1	Top 24 in Qualification advance to Semi-final  Top 12 in Semi-final advance to Final	Qualification: as below  6 heats of 4 in Semi- final  3 heats of 4 in Final

**Number of heats:** The number of heats in each round is found in the table above. For the Qualification phase, the number of heats should be chosen such that as many heats as possible have 4 riders.

Whenever it is not possible for all heats to have 4 riders, a number of heats will have either 3 riders or 5 riders, whichever must be done to maximize the number of heats with 4 riders. By preference, heats with 3 riders shall be avoided if it is possible to form the heats with only 4 and 5 riders. Any heats of 3 or 5 will be at the start of the heat order.

**6bis.6.004** A run is the individual unit of Competition in a BMX Freestyle Event, during which a rider performs a routine consisting of various tricks, which is evaluated by the judges.

#### Park Competitions

At all phases of the Competition, within each heat, each rider shall do 2 runs.

In general, riders do their first run in the start order defined in article 6bis.6.005. Once the final rider in the order within each heat has taken their first run, the riders will do their second run in the same order.

#### Start Order

**6bis.6.005** Qualification Phase

#### Park Competitions

Within the Qualification phase, riders are randomly assigned to each heat.

However, in case an event that is part of a series, the Qualification phase shall instead be done in reverse order of the current series ranking; that is, riders are assigned to their heats in order, starting with the unranked or lowest ranked riders, and ending with the highest ranked riders in the last heat.

In such a case, within each heat, the start order continues to be in reverse order of ranking, so that the highest ranked rider within each heat goes last in that heat. Any unranked riders are seeded randomly in the first heats in the order.

In case of the first event in a series, the final ranking of the previous season of the series will be used.

**6bis.6.006** Within the Semi-final phase (if done), the start order is in reverse order of the results of the Qualification phase.

**6bis.6.007** Within the Final phase, the start order is in reverse order of the results of the preceding phase.

**6bis.6.008** Within each phase of the Competition, the riders in each heat are entitled to a warm-up before their heat begins.

Park Competitions: a minimum 40 second warm-up must be given.

**6bis.6.009** In the Semi-final (if held) and the Final, any rider who is not present within the park or the riders area as described in the Technical Guide at latest by the start of the 15 minute warm-up period preceding that phase, shall not be allowed to start. They will be scored as DNS (“Did Not Start”) for the phase in question.

**6bis.6.010** In case one or more riders do not start in a Semi-final or the Final for the reason of missing the deadline described in article 6bis.6.009, the heats shall be redrawn as described in article 6bis.6.003.

In case one or more riders withdraw (or are disqualified or refused their start) once the deadline described in article 6bis.6.009 has passed, the heats will not be changed.

### **Mountain Bike Eliminator (XCE)**

**4.2.011** At least 12 riders must be entered for the qualifying round, otherwise no XCE event may be held.

The complete program, qualifying round and main event shall be organized on the same day. Upon reasoned request, the UCI may allow the race program to be split over 2 different days (one day for the qualifying round and one day for the main event).

The qualifying round takes the form of an individual timed run of one lap of the course. The best 32 riders (8x4) or 36 riders (6x6) go through to the main event (see Annexes 5-6).

In case of a tie between riders during the qualifying round, their order is determined by the last UCI XCO individual ranking. If the riders are not ranked in the UCI XCO individual ranking, lots are drawn to determine their order.

Race numbers for the qualifying round are in sequence starting from 33 or 37 on the basis of the most recent UCI XCO individual ranking and in the following order:

1. Classified elite and under 23 riders with ascending rank
2. Classified juniors with ascending rank
3. Unclassified elite and under 23 riders random
4. Unclassified juniors random

The riders start in sequence by their race number, the lowest number starting first.

The women ride before the men.

### Main event

#### **4.2.012**

The race numbers for the main event are allocated on the basis of the results of the qualifying round, starting with the number 1 for the winner of the qualifying round.

The main event comprises elimination heats in which the groups of riders are matched as shown in the tables in Annexes 5 and 6 - XCE competition formats.

Heat order:

- men first until women come to equal heat system;
- women small final followed by men small final;
- women big final followed by men big final.

Intentional contact by pushing, pulling or other means which causes another competitor to slow down, fall or exit the course is not allowed and results in disqualification (DSQ) of the originator.

At the sole discretion of the commissaires' panel, a rider can be announced relegated (REL) and will be given a heat position different to that of his actual finish.

Riders who are DNF, DSQ or DNS in the semi finals may not enter the small final.

The final classification of the competition is drawn up in groups in the following order:

- 1 all riders competing in the big final, except for riders DSQ.
- 2 all riders competing in the small final, except for riders DSQ.
- 3 riders DNF or DNS in the semi finals.
- 4 the classification of the other riders is determined by the round reached, then by the classification in their heat, then by their race number.

Within each of the above-mentioned groups, riders DNF are classified before DNS. In case of multiple DNF or DNS, the tiebreaker is the race number.

Riders DNF or DNS in the first round of the main event are listed without classification.

Riders DSQ in the main event are listed without classification.

Riders not qualified for the main event are not listed in the final classification.

Comments: In case of DSQ, the next riders will move up in the final classification. For example in case of a DSQ in the big final, the winner of the small final will be classified fourth in the final classification.

### Specific rules

**4.2.013**

A start grid must be drawn on the ground. The riders must be lined up next to each other on one line. The riders in each heat may choose their starting position in order of their race number. The rider with the lowest race number gets first choice.

**Venue Map and Information**

## **General Information**

### **About Chengdu**

Chengdu, the capital of China's southwest Sichuan Province, is famed for being the home of cute giant pandas. Located in the west of Sichuan Basin and in the center of Chengdu Plain, the city covers a total area of 12.3 thousand square kilometres (4,749 square miles) with a population of over 11 million.

Benefiting from Dujiangyan Irrigation Project, which was constructed in 256 B.C., Sichuan Province is reputed as the Heavenly State, Tian Fu Zhi Guo in Chinese, literally a place richly endowed with natural resources. Chengdu, as the capital, is extremely productive. The Min and Tuo Rivers, two branches of the Yangtze River, connected to 40 other rivers, supply an irrigation area of more than 700 square kilometres (270.27 square miles) with 150-180 million kilowatts of water. Consisting of abundant mineral resources, the land is extremely fertile.

The history of the city can be traced back 2,400 when the first emperor built his capital here and named the city. Through thousands of years its original name has been kept and its position as the capital and as the significant center of politics, commerce and military of the Sichuan area (once called Shu) has remained unchanged. Since the Han (206B.C.-220) and Tang (618-907) Dynasties when its handicraft industry flourished, the place has been famous for its brocades and embroideries. Shu embroideries still enjoy a high reputation for their bright colors and delicate designs, ranking among the four main embroideries in China. The city was also the place where the bronze culture, an indispensable part of ancient Chinese culture, originated; the place where the Southern Silk Road started; and the place where the earliest paper currency, Jiaozi (not the dumpling!), was first printed. It is listed among the first 24 state-approved historical and cultural cities and owns 23 state and provincial cultural relic units.

### **Transportation**

As the transport hub in southwest hinterland of China and the main access city to Tibet, Chengdu is easily approached thanks to its air routes and railways extending nationwide. The city bus and metro continue to develop, providing the locals and the tourists with great convenience.

### **Airport**

Code: CTU

Location: Chengdu Shuangliu International Airport is located about two kilometers (about 1.2 miles) east of Shuangliu County, about 16 kilometers (about 10 miles) away from downtown area.

### **Currency**

Yuan

1 Yuan = 0.131 Euro, 0.146 USD, 0.115 GBP, 0.143 CHF

### **Business Hours**

Banks – Banks are open weekdays 8:30am – 5:30pm, and some are open Saturday mornings.

Shops – Department stores, larger shops, and malls are open daily 10am – 10pm.

Pharmacies – Hours are generally 9am – 6pm. Bring medicines you take on a regular basis, but be aware that good medicines are normally available in China.

### **Electricity**

Electricity is supplied at 220 volts. American and European visitors will need a universal adapter for two-and three-pin round or flat plugs.

### **Internet**

Most hotels offer Internet access, and Wi-Fi is increasingly common in coffee shops, cafes and other public venues.

### **How to obtain a Visa for China**

Citizens of most countries must have a visa issued by the People's Republic of China, in addition to a passport with an expiration date not less than six months after your planned departure from China. Visas are required for most nationalities, including Europeans and North Americans. Tourist visas are usually valid for 30 days after entering the country, but longer-term visas, and multiple entry visas, can be obtained for a higher price. Visa application from outside of China can take up to a month, but faster service is available for travelers willing to pay a higher fee.

**The LOC will provide help to all participants to get a visa. More information shortly at:  
[www.urbanworlds.cn](http://www.urbanworlds.cn)**

## **Annex 1: Quota - 2018 UCI BMX Freestyle Park World Championships**

### **UPDATED**

Revision date: 28 August 2018

#### **Introduction**

Following the integration of the BMX Freestyle Park discipline into the UCI and the start of the Olympic Qualification period for the 2020 Olympic Games, the UCI has decided to set a participation quota by nation for the 2018 UCI BMX Freestyle Park World Championships, which will be held during the 2018 UCI Urban Cycling World Championships in Chengdu, China.

This will allow the most active nations in BMX Freestyle Park the ability to be well represented, while still giving all countries the ability to send a minimum of 1 rider in each category. This will also ensure that the number of entries will remain at a level that allows the event to be completed in the time available.

#### **Qualification Ranking by Nation**

The quota available to be earned by each nation will be decided through the creation of a Qualification Ranking by Nation for the 2018 season. For future seasons, this will be adapted based upon the development of the UCI International Freestyle Calendar.

For the 2018 season, in both the Men Elite and Women Elite categories, such a ranking will be created by adding the UCI points earned by the highest ranked 2 riders from each country during the following events.

Any ties in the ranking for each category will be broken by the county with the highest ranked rider in that category at the event in Edmonton, and finally, in Montpellier if still tied.

**Due to the unfortunate cancellation of the event in Budapest, the 2 events which will make up the qualification ranking are as follows:**

Events counted in the Qualification Ranking by Nation for 2018

- 2018 UCI BMX Freestyle Park World Cup – Montpellier
- 2018 UCI BMX Freestyle Park World Cup – Edmonton

**Quota**

Quota spots will be awarded for each category using the qualification ranking described above for that category, as follows:

Rank	Quota
1 <sup>st</sup> to 3 <sup>rd</sup>	Maximum 6 riders
4 <sup>th</sup> to 6 <sup>th</sup>	Maximum 5 riders
7 <sup>th</sup> to 9 <sup>th</sup>	Maximum 4 riders
10 <sup>th</sup> to 14 <sup>th</sup>	Maximum 3 riders
15 <sup>th</sup> to 19 <sup>th</sup>	Maximum 2 riders
All others, including countries not ranked	Maximum 1 rider
