

Explanation of BMX Freestyle Rankings

At present, there are several different BMX Freestyle Rankings.

BMX Park Rankings

UCI Individual Ranking

This ranking is maintained for both Men Elite and Women Elite. It is drawn up over a sliding period of 1 year, and includes the points earned at events registered on the UCI BMX Freestyle Calendar in the BMX Park discipline by each individual rider during that year. This ranking is updated every Tuesday and on 31st December. Points can be earned at UCI BMX Freestyle Park World Championships, UCI BMX Freestyle Park World Cup events, Continental Championships, Class 1 (C1) International Events (only the each rider's best 3 C1 events are included), and National Championships.

Each time the ranking is updated, points older than 1 year are subtracted from the ranking, and any points earned since the last ranking update are added.

The UCI Individual Ranking is presently used to qualify riders for UCI BMX World Cup events. In order to participate in a UCI BMX Freestyle World Cup, a rider must have 50 points in the latest ranking update before registration for that event opens.

The points scale used is found in the UCI BMX Freestyle Regulations here: https://www.uci.org/docs/default-source/rules-and-regulations/titre-vi-bis--bmx-freestyle.pdf?sfvrsn=eacb7994_16

The points table in 'Annex 2' applies.

UCI BMX Freestyle Park World Cup Ranking

This is an individual ranking which is maintained for both Men Elite and Women Elite. It is drawn up for a single season and includes only the results of UCI BMX Freestyle Park World Cup events in that season. This ranking begins from '0' for each rider starting on 1st January.

The points scale used is found in the UCI BMX Freestyle Regulations here: https://www.uci.org/docs/default-source/rules-and-regulations/titre-vi-bis--bmx-freestyle.pdf?sfvrsn=eacb7994_16

The points table in 'Annex 1' applies.

The UCI BMX Freestyle Park World Cup Ranking is used to determine the winner of the series for each season. This ranking is maintained by Hurricane, who organise the series on behalf of the UCI. It is available at <https://www.uci.org/bmx-freestyle/events/uci-bmx-freestyle-world-cup-2019> and is updated following each World Cup event. Scroll down and click on the link called 'Rankings'.

Nation Ranking

The Nation Ranking is maintained for both Men Elite and Women Elite. It is updated every time the UCI Individual Ranking is updated.

The Nation Ranking is decided by adding the points of the 2 best placed riders in that category from the UCI Individual Ranking.

The Nation Ranking is used to decide the number of riders that each country is allowed to register in the UCI BMX Freestyle Park World Championships within that year (the higher ranked a country is, the more riders can be registered).

Olympic Qualification Ranking

The Olympic Qualification Ranking is a Nation Ranking that is used to qualify countries for the BMX Freestyle Park competition that will be held during the 2020 Tokyo Olympic Games. It includes points earned by riders of each nation during various BMX Park events on the UCI BMX Freestyle Calendar during the Olympic Qualification Period, which began on 1st November 2018 and ends on 11th May 2020. At any given moment, the Olympic Qualification Ranking consists of the sum of the points of the best 2 riders from each nation. It is updated every Tuesday.

The exact composition of the Olympic Qualification Ranking and the process used to qualify for the Olympic Games is found here: https://www.uci.org/docs/default-source/default-document-library/tokyo2020olympicgames-qualificationsystem-bmxfreestyle-en_english.pdf?sfvrsn=8acc58f0_0
