Para-cyclists worldwide dream of wearing the rainbow jersey of UCI World Champion, a distinction that goes to only the very best of our sport.

Each year, para-cycling’s track specialists have the chance to win that precious jersey at the UCI Para-cycling Track World Championships.

The UCI Para-cycling Track World Championships are para-cycling’s leading annual track event and are much awaited by athletes and fans alike. To perform to their best, the athletes need to be sure that they can compete in the best possible conditions, which is why the role of the event’s host is so important.

The UCI greatly appreciates the interest and commitment shown by potential organisers. In bidding to host the UCI Para-cycling Track World Championships, you have already demonstrated your wish to invest in the future of this sport and I thank you sincerely for that.

To help simplify the bidding process, we have prepared this concise, practical guide that was prepared after consultation with our various partners. Our aim is to help potential hosts compile a water-tight candidature file that contains all the required elements, for example concerning the competition site, infrastructure, transport, emergency services, accessibility etc.

This bidding guide also answers frequently asked questions such as: What commitments do candidate organisers make? What services does the UCI offer? What are our obligations? What about scheduling and deadlines?

I wish you the best of luck in your bidding procedure and hope that we will be able to come to your city or region with an edition of our UCI Para-cycling Track World Championships.

A BIT OF HISTORY

The UCI Para-cycling Track World Championships were organised for the 1st time in 2007, in Bordeaux, France.

Para-cycling was managed by the International Paralympic Committee until 2007, when it was officially integrated into the Union Cycliste Internationale.

Since then, the UCI has worked continuously to develop this key Paralympic discipline.

Para-cycling is about courage, commitment and performance, and the peak of the track season is the UCI Para-cycling Track World Championships.

This medium-sized event is the perfect opportunity to involve people in a competition that highlights strong values and incredible life stories.

ORGANISERS OF THE UCI PARA-CYCLING TRACK WORLD CHAMPIONSHIPS:

2020: Milton (CAN)
2021: Rio de Janeiro (BRA)
2023: Glasgow (GBR)
2024: Rio de Janeiro (BRA)
Hosting a UCI event will help a city to achieve economic, touristic and social objectives.

According to UCI experience, the most efficient strategy is to host several events over 3-4 years to create a link between cycling and the city.

The percentages represent the approximate share of marketing and sponsorship rights each level will be entitled to.

DEVELOPING CYCLING IN YOUR CITY

Hosting a UCI event provides the perfect platform for promoting the development of cycling in your city.

- Do you want to promote your region/city as a bike-friendly environment?
- Do you wish to develop tourism in your area and encourage your citizens to use bikes as a means of transport?

Hosting a UCI event will provide a concrete translation of your ideas and plans. The UCI can support you as you build a strategy to develop cycling: we can provide you with ideas and benchmarks from successful initiatives around the world to help you to reach your goals.

We share the same target: to develop cycling!

Cycling is more than a sport, it is the answer to many concerns of our society: public health, environment, traffic…

UCI BIKE CITY LABEL

In order to promote cities and regions that invest in cycling, the UCI has created a “UCI Bike City Label”. This label will distinguish cities active in two areas:

- Hosting a UCI event
- Developing cycling within its population.

Hosting a UCI event will provide a concrete translation of your ideas and plans. The UCI can support you as you build a strategy to develop cycling: we can provide you with ideas and benchmarks from successful initiatives around the world to help you to reach your goals.

The city/region will be entitled to use the label over a five-year period.

The label will be awarded each year during the UCI Road World Championships. A communication plan dedicated to the winners will be established through the UCI’s various communication channels.
The Union Cycliste Internationale (UCI) is the world governing body for cycling recognised by the International Olympic Committee (IOC). The UCI’s mission is to develop and promote cycling - in close collaboration with National Federations - as a competitive sport, as a healthy recreational activity and as a means of transport.

The UCI governs eight disciplines of the sport of cycling: road, track, mountain bike, BMX Racing, BMX Freestyle, cyclo-cross, trials, indoor cycling. Five of them are represented at the Olympic Games (road, track, mountain bike, BMX Racing and BMX Freestyle), two at the Paralympic Games (road and track) and four at the Youth Olympic Games (road, mountain bike, BMX Racing and BMX Freestyle).

Additionally, the UCI promotes a number of its own events, including the UCI Road World Championships, an iconic annual event, and a wide range of other UCI World Championships and World Cups across the various disciplines. The different sizes and scopes of our events ensure that UCI cycling events can be hosted by all cities.
